# OUR TEAM & MISSION

## **Our Team:**

- The assurance of maintaining international membership and certifications (including ISO 45001 and ISO 9001) HNH will continue to invest in team development – QHSE, machinery and equipment to ensure that the satisfaction and quality will meet in each and projects.

## **Our Mission:**

- To uphold and gain the respect and trust of our clients all throughout every projects
- To implement our best practice that ensure the quality and consistency on timely manner
- To maintain our continuous support through HNH in every division
- To cultivate a long-term relationship with our clients to obtain a mutual goal as business partners
- To maintain the highest standard of quality to all team members.

## Road Marking:

- HNH ensures that all road marking done meets the requirements of Qatar Traffic Control Manual (QTCM) and Qatar Construction Standards 2014 (QCS).
- We do Road markings including those across the carriageway, along the carriageway, along the edge of the carriageway, on the kerb or at the edge of the carriageway and other road markings and removal of existing road markings .

## Traffic Management:

- Road closures with diversions
- Lane closures
- Narrow lane schemes
- Major and minor contraflows
- Stop / Go working
- Works involving TMAs or Mobile Lane closures
- Concrete, Steel and Plastic barrier protection
- Special Event Management
- Dynamic Message Sign (DMS) and Electronic Arrow Board
- Truck Mounted Attenuator (TMA) rental

## Maintenance and Inspections

- Visual inspection of viaduct structural bearings
- Scaffolding, also called scaffold or staging, is a temporary structure used to support a work crew and materials to aid in the construction, maintenance and repair of buildings, bridges and all other man- made structures. Scaffolds are widely used on site to get access to heights and areas that would be otherwise hard to get to. Unsafe scaffolding has the potential to result in death or serious injury.
- Supply and installation, maintenance of traffic signs
- Installation and maintenance of guard rail and crush cushion
